LITEGARD Round Clock Guards are constructed with 11 gauge steel wire resistance welded. Standard sizes range from 12" to 24" diameter in 1" increments. The standard guard depth is 4" to allow clearance for clocks with up to a 3" depth. Other custom sizes are available on special order. Nylon surface mounted. Hinge clips are supplied for easy surface mounting. Available in powder coated epoxy and polyester chrome or white finish. Other custom colors are available on special order. Coating is moisture and weather resistant.
